C&S Wholesale Grocers, Inc. and Subsidiaries

1. Purpose

Security awareness and training is an important aspect in protecting the Confidentiality, Integrity, and Availability (CIA) of sensitive information. The purpose of this policy is to ensure that the appropriate level of information security awareness training is provided to all employees and contractors employed by the C&S Family of Companies (Company). This policy applies to all employees and contractors and anyone else needing access to information and its systems.

2. Management Responsibilities

It is the manager's responsibility to ensure that his/her direct-report employees, interns, contractors, and/or third-party workers are aware of, and agree to abide by, the Company's email policy.

3. Security Awareness and Training Policy

All employees, contractors, and anyone accessing Company information systems must understand how to protect the CIA of information and information systems. The Company will ensure that all employees and contractors are given security and privacy awareness training during the new hire process and before accessing any Company systems. The training should reflect the common security and privacy awareness practices specific to the Company environment including, but not limited to, physical access, restricted areas, potential incidents, how to report incidents, workstation security best practices, handling confidential data and customer data and how to spot common security risks, such as phishing. Below are the minimum-security awareness training requirement which shall be reviewed and updated as needed at least annually by the VP, Security and Service Delivery.

Topic	Frequency	Description	Scope
Security Awareness Training	Upon Hire/Annually	Workforce Members are assigned Information Security training upon hire and annually thereafter.	All Workforce Members
Policy Review and Acceptance	Upon Hire	Workforce Members are provided copies of Information Security policies (and any other policies as required by Legal and HR) upon hire and annually thereafter.	All Workforce Members
Phishing	Monthly	Workforce Members are trained to identify malicious phishing emails via periodic social engineering e-mail simulations	All Workforce Members
General Awareness	Monthly	Periodic e-mails are sent to all Workforce Members regarding simple steps and precautions they can take to safeguard data when using their computers, tablets, phones, in the office and at home.	All Workforce Members
Specialized Security Training	As Needed	At Managements discretion, specialized training should occur for anyone with elevated or administrative privileges on Company information systems. The training should focus on the individual's obligation to recognize the associated risks with the specific technology they use or configure.	Information Services
