Avg MTTR - 11 hours and 2 minutes

WIZ:

% (X of X) Wiz onboarding covering all of GCP and Oracle assets today.

Wiz:

% (X of X) Wiz GCP issues found were remediated.

% (X of X) Wiz Oracle issues found were remediated.

Wiz:

We have triaged

40 issues in Wiz.

We also have tickets that we have worked on. We also worked with platform team for a couple issues and are fixed now.

After working on the issues, I have also made some modifications on the detection rules to exclude false positives.

Cyera:

We are still waiting for the GCP account to be enabled.

We are also awaiting communication about Cyera to other departments so that the team can start actioning on them.

We are following up on previously actioned Cyera issues.

Integration meeting with Ed Banash and Cyera team is scheduled for this week.

100% (15662/15662) datastores are onboarded using Cyera

83% (13424/13424) datastores have been scanned using

24% (704 of 3024) Google Workspace Issues have been Remediated using Cyera.

19% (73 of 377) GCP Issues have been Remediated using Cyera.

Zscaler:

X% (X of X) FTE are on ZPA and their Cisco ASA client has been removed

X% (X of X) Contracts are accessing C&S network using ZPA

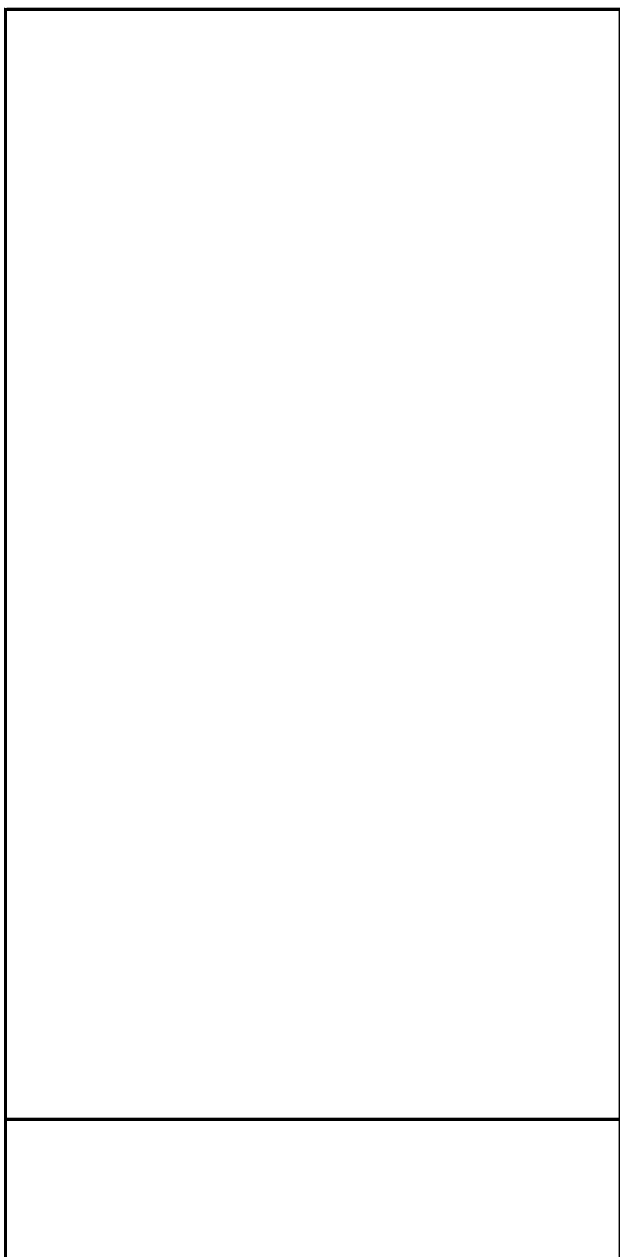

Testing ZID- post testing we can implement in the prod
